5 January 1965

MEMORANDUM FOR: Major General Edgar C. Doleman
Assistant Chief of Staff for Intelligence
Department of the Army

SUBJECT: Lieutenant Colonel Raymond W. Raines

1. On occasion when a member of my Committee has been reassigned after a significant period of service I have written a note of commendation on his work in this USIB Committee to his superiors. Although Colonel Raines unfortunately attended this Committee as the member only over a period of several months I do want to give you a note of appreciation for his services.

2. Colonel Raines quickly exhibited an intelligent perception of the issues before this USIB Committee and invariably showed a cooperative attitude in trying to arrive at decisions. I found Colonel Raines to be exceptionally logical in his approach and particularly persuasive in dealing with other members. I know the Committee feels his loss which is why I write this note.

Chairman
Committee of the USIB
